About healtheConnect Alaska: healtheConnect Alaska is a non-profit entity, created by State legislation to be the health information exchange for all of Alaska. We are not owned or controlled by any healthcare entity and we do not answer to anyone but our Board of Directors and the State. We do not sell, share, or use health information for profit. EVER. We are Alaskans, working to establish and grow the state’s health information exchange so that every Alaskan gets the right care at the right time for the best possible outcomes.

Communicate Personal Health Information (PHI) between healthcare providers, health information exchanges, long-term care, home health, hospice, paraprofessionals, and others. DirectTrust network facilitates secure message exchange between hundreds of thousands of addresses.

Certified as meeting the requirements of the 2015 Edition Health Information Technology Certification Criteria by the Office of the National Coordinator for Health Information Technology (ONC).

- Direct messages can be securely delivered to recipients not on your network
- User identity is verified and authenticated, and the system provides usage reports for easy audit documentation
- Can be integrated with Outlook and most major email services
- Securely exchange referrals, CCDAs, etc., for improved care coordination
